INTRODUCTION

This catalogue lists the computer, display, and docking station models covered by AIT's current purchase agreement, along with accessories recommended by AIT.

Please note that all catalogue prices, except for those specified in AIT's purchase agreement, are determined by our suppliers. While we make every effort to ensure this catalogue remains up to date, there may be instances when price updates are not communicated to us immediately.

AIT Standard Items

Items marked with the **AIT Standard Item** stamp are the items we strive to always have in stock, and as such their expected delivery time is shorter.

Delivery Time

DUE TO THE CURRENT GLOBAL SITUATION, WE ARE UNFORTUNATELY UNABLE TO PROVIDE CONFIRMED DELIVERY TIMES FOR COMPUTERS AT THIS STAGE.

If you would like an estimated delivery time, please add a comment when placing your order.

We are continually working on getting IT equipment to DTU as fast as possible.

Upgrades & Unlisted Items

The current purchase agreement contains newer hardware, meaning that each computer model (except the desktop workstation) is more powerful than the last agreement's "Performance"-version of the same model.

For further upgrades to a computer model or for items not listed in the catalogue, please contact [IT Service](#) to be advised in customizing or finding equipment to match your needs. Please note that this will result in extended delivery time (see above).

Ergonomic Equipment

For ergonomic equipment (such as ergonomic mouse and keyboard, backpacks, and wrist rests), please refer to the **IT Ergonomics** section of the [Ergonomics Catalogue](#) (currently only available in Danish).

Purchasing Items

See [DTU Inside - Order IT equipment](#) for information on purchasing any IT equipment.

Please be advised that all accessory purchases must be processed through [DTU Fusion](#) by your respective department. Should you encounter any difficulties, we are always happy to help.

When AIT receives an order for IT equipment, it is presumed that the appropriate managerial approval has already been secured. Additionally, once we have received the final approval, the order is considered binding, and the equipment is not eligible for return.

Registration of Equipment

AIT requires the end users DTU initials before we can deliver the equipment. If we do not receive this information, the delivery will be placed on hold until we can register the equipment to the correct user. If the user has not been created yet, please wait until the user has been created in DTUBasen and has received their initials to ensure a smooth procurement and delivery process.

EQUIPMENT FOR ADMINISTRATION EMPLOYEES

Standard Setup

AIT will supply each administration employee with **one** of the following setups:

LAPTOP SETUP

| | |
|-------------|--------------------------------------------------------------------------------|
| PC | 1x standard laptop computer (with built-in webcam) |
| Display | 2x 24" displays (built-in dock) OR 1x 27" display (built-in dock) |
| Accessories | 1x webcam 1x headset 1x wireless mouse/keyboard combo |

DESKTOP SETUP

| | |
|-------------|--------------------------------------------------------------------------------|
| PC | 1x standard desktop computer |
| Display | 2x 24" displays (built-in dock) OR 1x 27" display (built-in dock) |
| Accessories | 1x webcam 1x headset 1x wireless mouse/keyboard combo |

Administration employees will receive suitable, used IT equipment when available. If no used IT equipment is available, the following items are standard:

| | |
|------------------|---------------------------------------|
| Laptop | HP EliteBook 8 G1a 14 AI |
| 24" Display | HP 524pu - Series 5 Pro USB-C Display |
| 27" Display | HP 727pk - Series 7 Pro USB-C Display |
| Docking Station | HP Thunderbolt Dock G6 |
| Headset | Jabra Evolve2 40 MS Stereo, USB-A |
| Webcam | Logitech C925e Webcam |
| Mouse + Keyboard | Logitech MK270 Wireless Combo |

Payment

AIT covers the cost of **one** workplace setup for each administration employee as outlined above. In all other situations, including but not limited to the following scenarios, the department is responsible for the expense of specialized or additional IT equipment:

- Procurement of non-standard IT equipment.
- Employees with multiple work locations, such as another campus or a home office.
- Changes in job responsibilities or departmental processes that necessitate extra equipment or upgrades to existing IT resources.
- Requests from employees or departments to replace IT equipment prior to the expiration of its warranty period.

The IT equipment is intended to remain functional throughout its four-year warranty period from the date of purchase. This standard also applies to damages not covered by the warranty.
